

FREEWAY™

Drug Eluting PTA Balloons

The coating makes the difference

An innovative therapeutic concept with excellent trackability for challenging femoropopliteal and infrapopliteal lesions

- › Non crystalline coating – less vulnerable to abrasion
- › 1:1 mixture paclitaxel with shellac: proven and safe
- › Delivers drug locally over a short period of time
- › Avoids chronic inflammation
- › Respects original vessel anatomy
- › Treats lesions where stents are not a viable option
- › Reduces the incidence of restenosis
- › Enables re-intervention

FREEWAY™ 014

Paclitaxel eluting
over the wire (OTW)
PTA balloon catheter

FREEWAY™ 035

Paclitaxel eluting
over the wire (OTW)
PTA balloon catheter

JOKER® 014

Over the wire (OTW)
PTA balloon catheter

JOKER® 035

Over the wire (OTW)
PTA balloon catheter
